WELCOME TO MORRIS PARK

History

Located in the East Bronx, Morris Park is a low to mid-rise residential neighborhood situated between the wide green spaces of the New York Botanical Garden and Bronx Zoo to the east and the Albert Einstein College of Medicine and Jacobi Medical Center to the west.

Before the 1870s, this section of the Bronx was part of Westchester County and primarily used as farmland. In 1889, John Albert Morris built the Morris Park

Racecourse, which was used for both thoroughbred horse and car racing until 1904. In 1907, the land became property of New York City and was subdivided into building lots and the current street configuration, laying the foundation for the residential feel of the neighborhood today. As the public transportation system expanded and the population of the Bronx grew, many diverse immigrant communities have come to call Morris Park home.

TRANSPORTATION OPTIONS

BY SUBWAY

Take the Eastchester bound 5 Train to Morris Park Ave or take the Wakefield bound 2 & 5 Trains to Pelham Pkwy, Bronx Park East or E 180th

The 2 and 5 subway lines run north-south and are the best option for getting to and from other boroughs. The 2 train travels to the west side of Manhattan and the 5 train travels to the east side of Manhattan.

Subway and commuter rail maps are available in the station agent booth at most subway stations and can also be found here: <http://www.mta.info>

TRANSPORTATION OPTIONS

BY BUS

Take the BX 21, BX 22, BX39, BX12 or BX12+

Buses reach almost every corner of the Bronx and are a great way to travel east-west across the borough. There is a network of buses that reach the Morris Park area from any destination, including the BX12+ Select Bus Service.

All Select Buses require payment before boarding and receipt as proof of payment for the duration of your trip.

For more information on Select Buses, general bus routes and maps visit this site: <https://bustime.mta.info>
