MORRIS PARK BUSINESS IMPROVEMENT DISTRICT

Racing towards a better Bronx

WHO WE ARE

The Morris Park Business Improvement District, legally established in 2018 is the 75th BID in NYC and the 10th in the Bronx. We are a 501c3 non-profit organization working to support small businesses along Morris Park Avenue between Unionport Rd/ Amethyst St and Williamsbridge Rd, by providing:

- Supplementary sanitation and street cleaning services;
- Beautification services including graffiti removal, horticulture and holiday lights;
- Safety;
- District marketing.

These services are provided in addition, not as replacement, to services provided by the City of New York.

The organization is funded through a tax assessment collected by the NYC Department of Finance, levied on commercial property owners and based on linear commercial street frontage. Residential, public and non-profit properties (non-profits, schools, houses of worship, City parks, etc.) are exempted from the commercial property tax assessment rate.

WHAT WE DO

BEAUTIFICATION

Our horticultural program regularly cleans, plants and maintains

129 TREE PITS

SANITATION

Our supplementary sanitation team operates Rain or Shine

7
HOURS
PER DAY

7
DAYS
PER WEEK

We are continually working to understand the needs of merchants and residents by working with local community organizations, the NYPD, Community Board and elected officials to improve streetscape infrastructure, tree pit conditions and the commercial environment.

BUSINESS SERVICES

The Morris Park BID supports over

300 DIVERSE AND VIBRANT BUSINESSES

The MPBID supports small businesses by advocating on their behalf, connecting them with City services, organizing and promoting special occasions and producing public events free for the community, residents and visitors.

Morris Park is home to a diverse retail mix of family-oriented and multi-generational businesses. This diversity is also reflected in the multicultural fabric and community oriented feel of the neighborhood and of the Morris Park Avenue commercial corridor.
